Fake or real paddles

Every fake news detective needs a fake or real voting paddle!

Paddles help to show everyone when you have decided if a news report is real or not real.

What you need:

- Small stick (like a lollipop stick)
- Colouring pens or pencils
- Paper
- Glue (optional)
- Glitter, feathers or stickers (optional)

Instructions:

1. Print off or copy out the templates on the next page
2. Decorate both pictures: as well as colours, you could use glitter, stickers, feathers or pom poms!
3. Cut around the circle on each template (you can ask a grown up to help you).
4. You should now have two decorated circles, one with a picture of a thumbs up 👍 and one with a picture of a poo 💩. Turn them so that they are face down.
5. Glue your stick to the non-decorated side of one circle.
6. Put the other circle on top, so that the blank sides are together and the decorated sides are facing out.
7. Add more glue to the backs of the circles so that they completely stick together.
8. Hoorah! You have a paddle. Now you can use it to vote in our Fake or real headlines quiz!
